

Promoting web 2.0 uptake for organisational and personnel development in VET and adult training

What is SVEA

SVEA addresses the collaboration and web 2.0 skills of teachers and trainers in both **Vocational Education and Training (VET)** and **adult training institutions**, with a special focus on personnel and organizational development.

Goals

- ☐ Promotion of the web 2.0 uptake in VET and Adult Training
- ☐ Focus:
 - ✓ Strengthen the trainers' know-how
 - ✓ Strengthen the use of Web 2.0 in VET and Adult Training Institutions
- ☐ Activities:
 - ✓ Collaborative Online-Platform
 - ✓ Web 2.0 Training program

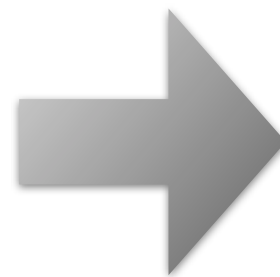

What is SVEA - European Partners

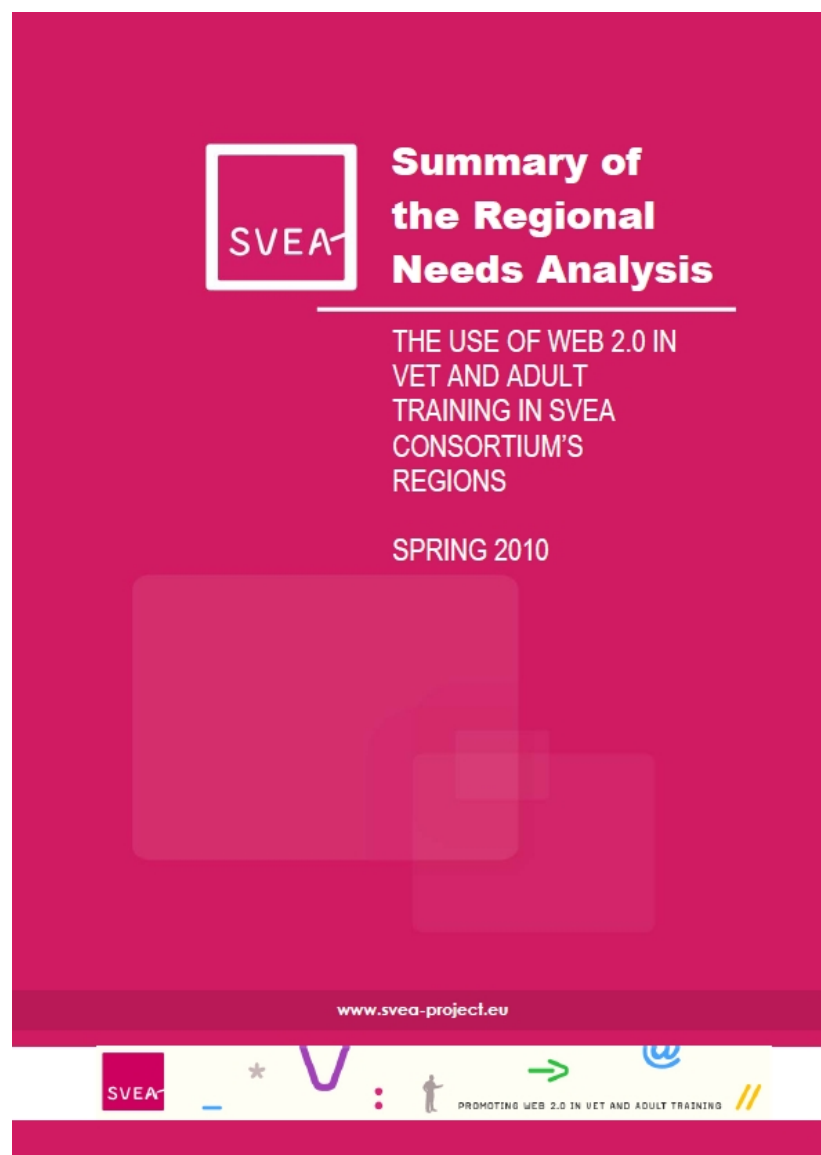

What is Open Atrium

Open Atrium is a collaborative environment that has group spaces to allow different teams and users to work with each other.

- ☐ Platform in open source model
- ☐ Create and edit content in different forms
- ☐ Use the power of Drupal as a framework
- ☐ Create subprojects with Features

Need Analysis

The SVEA regional needs analysis is a result of 5 regional analyses conducted in the SVEA consortium regions.

The analysis was structured in four phases:

- ☐ Stakeholder mapping
- ☐ Desktop research
- ☐ Phone interviews
- ☐ Regional round table workshops

SVEA Regional Analysis: Main Findings

Benefits in the uptake of web 2.0:

- ☐ Cultural
 - ✓ High level of collaboration
 - ✓ Chance to acquire new knowledge very quickly
- ☐ Structural / Institutional
 - ✓ Cost effective delivery of courses online
 - ✓ Flexibility of learning: anytime, anywhere
 - ✓ Course and tools learner-oriented
 - ✓ Building of a learning community
- ☐ Technological
 - ✓ Development of new underpinning knowledge and practical skills
 - ✓ Integrated with existing professional work-based competencies
 - ✓ Improved technical infrastructure

Where did we start?

Development and delivery of the core functionalities of the collaborative platform

THE PLATFORM

The screenshot displays the SVEA platform interface. At the top, there's a blue navigation bar with 'Languages', 'admin', and a home icon. Below this is a toolbar with various icons for document, chat, calendar, user, bird, calendar, paw, folder, notepad, and a question mark. On the right of the toolbar are buttons for 'Create content', 'Settings', and 'Search'. Below the toolbar is a secondary navigation bar with 'View', 'Edit', 'Revisions', 'Archive', 'Reference this', 'Subscriptions', 'Add Book page', and a help icon. The main content area is titled 'Photo Sharing Applications' and includes a user profile for 'admin' dated '1:35pm Dec 15, 2010'. The text describes the unit's purpose and lists four learning modules. A sidebar on the right contains a link to the main dashboard, a 'Highlight changes' section with a dropdown menu, and a 'Notebook' section listing 'Photo Sharing Applications' with two sessions.

Photo Sharing Applications

This unit is designed to introduce and develop teachers' competencies in using photo sharing applications on the web. It is aimed at teachers with no or little knowledge or experience of using photo sharing websites and will demonstrate how key features can benefit learning and teaching. For this particular unit, one of the most prominent providers, Flickr will be used, with some references being made to other providers.

There are four learning modules, concluding with a series of activities to complete.

Session 1: An Introduction to Photo Sharing Applications

This session is designed to introduce teachers to the concept of photo sharing applications and examines their key features and how they can be used effectively in learning and teaching. User-generated content is central to all emerging technologies or web 2.0. With a sharp rise in the use of digital media (mobile devices and cameras) there has been a rise of websites available for both storing and sharing photos. Photo sharing applications offer users the opportunity to easily contribute photos, whilst becoming engaged with fellow users within their 'community' elements.
